Greetings Fellow Australians

And friends around the World,
Attack, Attack, Attack America Now – Throw Out Barrack Obama!

America has Nuclear Weapons, Chemical Weapons, Biological Weapons, Weapons in Space, and 700 Bases around the World, America has Harp, and Microwave Guns, Attack, Attack, Attack America Now – Throw Obama Out!

Interesting heading isn't it people?

But at least I got you here to read the following so the heading worked and hopefully the following will educate some people, wake people up and see what type of country and World we live in.

The below headings Day in, day out that is all the rest of the World see coming from American & Western Controlled Zionist Mainstream Media.

- Attack Iran they are building Nuclear Bombs
- Attack Iran they have Chemical Weapons
- Attack Iran they have Biological Weapons
- Attack Iran they Dress Funny
- Attack Iran – Help Protect Israel

The headings are amazing, what The Mainstream Propaganda Controlled News feed to Americans and the World.

From the above list what America has in Weaponry it would seem the only country, which is a threat to the World, isn't Iran, but the United States of America.

Israel has 200 – 400 Illegal Nuclear Weapons and if you read **"Special Terrorism Threat Report" Part - 6** up here on Scribd.com isn't really Legally A Country, with No Constitution, No Bill of Rights, NOT a Member of the IAEA so where is their **Legal Right to have Nuclear Weapons?**

And Israel has threaten the **"Whole World With The Sampson Option"** to destroy the World and every living thing on planet earth if Israel doesn't get what it wants, when it wants it.

So who is the real threat to the World again?

Iran with none of this Weaponry?

Or

Israel and America?

At this present time, I would like to say something quickly about the Russians, you know these Russians are sneaks, sly, cunning, untrustworthy also.

President Putin and some of them Russian Generals need somebody to take a baseball bat to them walking down the street one night, because I blame **"President Putin Directly"** for playing both sides of a possible War with Iran and possible WW111.

SEARCH FOR TRUTH

Lets Backtrack Some

Iran's Government looked at their countries power situation, supplying power to their population and country and after doing the maths & science decided to go with a few Nuclear Power Stations.

After looking at other Nuclear Power Stations accidents about the World, they thought we will build these **Power Stations under ground**, so if there is any accidents the whole Power Station can be cemented in and "**NO Nuclear Waste – Contamination Escape into the Atmosphere**"

Iranian Government & Advisers Need A Medal

What wonderful foresight, forward thinking

So they needed help in building these Power Stations, and put out Tenders to countries and companies to help build them.

Russia won the contracts to build these Nuclear Power Stations.

Why I blame "President Putin Directly" for playing both sides of a possible War with Iran and possible WW111, and being down right corrupt to the bone.

Over all these years when have we ever-heard President Putin or any Cabinet Minister or Russian General come out and deny "**Iran**" is building Nuclear Weapons?

Right Never!

Because if "**Iran**" is building Nuclear Weapons in these Power Stations, then it is Russia which is helping to build those Nuclear Weapons for Iran?

Common sense & deduction "**Watson**" – Thanks.....

Remember it was Russia that won the contracts to build these Power Stations?

If I was a betting man, which I am and love a bet on the "**Greyhounds or Horses**" and win sometimes little amounts here and there to buy extra food in the house.

If I was a betting man, Russia and President Putin played Washington a "**Merry Song**" looking at the bigger picture and the "**Grand Chess Board Game**" for control going on with the Kharz Zionist Control over Washington DC and NATO countries and the other suck up countries like Australia.

I would say the both is going on, and they were smart building 5-6-7-10 different installations, a few of these places yes they are building "**Nuclear Power Plants**" **So Iran is telling the truth.**

But the others if I was a betting man, I would say its Russia Building Nuclear Weapons Sites, with Nuclear Weapons, you dam idiots in Washington DC and at The Pentagon, in accusing Iran of building Nuclear Weapons, you forgot to ask the next question "**Is Russia Building Nuclear Weapons Sites**" then.

So if Russia has built Nuclear Weapon Sites and have maybe 5-6-7-8 sites hidden across Iran this is a big game changer on the "**Grand Chess Board Game**"

If this tunes out to be true, hundreds and hundreds of advisers and heads should roll at **CIA, The Pentagon, and State Dept for not even factoring in this.**

So now we have Nuclear Russia, Nuclear Iran, Nuclear Pakistan, Nuclear India, Nuclear China.

SEARCH FOR TRUTH

Old, Old Intelligence tell us Iran has possibly 2-3 Nuclear Weapons they brought from the Ukraine when that country broke up and President Putin was angry they sold the weapons to Iran.

Old, Old Intelligence tells us also "**Bill Clinton's Administration**" ran a "**Covert Operation**" and sold Iran plans to make a Nuclear Weapon but they left out some of the parts and components when selling it to Iran.

Can you see how corrupt all these people are?

Bill Clinton through the **CIA Weapons Smugglers – Dealers** sells Iran plans to make a Nuclear Bomb, and he pockets the money behind the scenes and all the others involved.

Then George Bush & Barrack Obama come to Office and kicks up a stink about "**Iran Building Nuclear Weapons**" and want to attack Iran and replace the Government.

Talk about down right corrupt, now people know why everybody about the World hates United States of America, both political parties who ever is in office play both sides of the game of Wars, invasions, conflicts and pocket money to be made.

Summary

Talk about a game of Eanie, Meanie, Minnie, Moe, Catch A Nicker By The Toe, which one of them underground Iranian sites have Power Stations, and which ones have Russian Nuclear Weapons in there ready for Washington DC if they want to start WW111

As for BIBI in Israel he better hope the Israeli Zionist Jews & The Palestinians don't find out how Israel has been infected, contaminated twice with DU from all over the middle east now resting all over Israel, every Jew and Palestinian will join together to string Bibi up by a rope at the nearest tree.

Now for some heavy reading this is what I have for people.

Iran's refutation of US' lies of nuclear weapons censored by corporate media, political

Levying war against the US is defined as treason in the US Constitution.

The political and corporate media oligarchy who lied to levy war in Iraq committed treason against the US.

The political and corporate media fascists now lie for war with Iran.

The latest lie is one of egregious omission: refusing to communicate to the American public Iran's refutation of US government lying rhetoric of a nuclear weapons program in Iran printed below.

When media and government silence the voice of opposition, this shouts-out as propaganda that middle school students are taught to recognize.

In addition, IAEA has used curious and twisted language in their reports; finding no diversion of nuclear material from legal and lawful use should be their emphasis.

The fact it is not is *prima facie* evidence that political pressure is being exerted on IAEA leadership to spin their reports against Iran.

The history of US political pressure to cause war rather than ethical address of concerns is powerful evidence.

IAEA is likely under the same type of political pressure to make a case for war with Iran that we witnessed before the US invasion of Iraq the US eliminated the UN agency director who would have resolved concerns of alleged Iraq weapons. As I previously reported

"...the conservative first option should have been the UN Security Council voting for the UN WMD agency, the Organization for the Prohibition of Chemical Weapons (OPCW) to directly request Saddam to submit to OPCW's authority.

The Director-general of OPCW, Jose Bustani, was in talks with Saddam to do so. Instead of supporting this reasonable alternative to war, the US promised to withhold its funding of the UN (22% of the UN's budget) until Bustani was fired.

The US called Bustani's talks with Saddam an "ill-considered initiative."

The US request was honored the US then paid its 2002 UN dues in April 2002 less than one year before the US invasion of Iraq.

This was the first time in UN history where the Director of an international program was fired.

By the way, the US does not cooperate with the OPCW to ensure US compliance with International Laws of chemical and biological WMD."

Again, the bottom line is that war rhetoric against Iran is in the face of Iran's compliance with legal and peaceful use of nuclear energy and medicine under the Non-Proliferation Treaty (NPT).

The false outrage Obama and other war mongers have is the more complicated issue of Iran's voluntary adaption and then withdrawal from Additional Protocol above and beyond NPT.

The current non-issue is US prevention of Iran buying medical isotopes on the open market for crucial medical imaging procedures and treatment to nearly one million Iranians, and US complaint when Iran legally produces it in their own facility.

The tragic-comic propaganda on this issue is revealing of the US treasonous lies for war the amount of medical isotope needed for a year in Iran is less than one gram at a production cost to Iran for the fuel of ~ \$75,000.

Please let this evil propaganda sink in the US is threatening war, including first-strike nuclear weapons, over a volume of legitimate medicine less than a sip of your morning coffee that the US withholds from Iran.

Criminally complicit political leaders and corporate media show their commitment to war by not simply communicating these facts that prove how easily this issue could be resolved.

Here is Iran's communication in good faith effort to represent their refutation of US claims and the twisted IAEA report language

Communication dated 1 March 2010 received from the Permanent Mission of the Islamic Republic of Iran to the Agency regarding the implementation of safeguards in Iran

Explanatory note by the Permanent Mission of the Islamic Republic of Iran to the IAEA on the Report of the Director General on implementation of Safeguards in Iran (GOV/2010/10)

- 1- The report (GOV/2010/10) is not balanced and factual since it has not duly reflected the cooperation, letters and explanations of the Islamic Republic of Iran to the questions of or communication made with the Agency.
- 2- The report, in contradiction to the Agency's statutory mandate, contained tremendous confidential technical details which create a lot of confusions for various groups of readers, diplomats, experts and the public at large.
- 3- The only new development since the last report by the former Director General is the successful enrichment activity up to 20% in order to produce the required fuel for the Tehran Research Reactor after Iran was disappointed due to lack of a responsible response to its legitimate request.

But the lengthy text of the historical background and repeating obsolete issues such as alleged studies, so called American laptop, with details has created confusion for the public.

The alleged studies, including baseless allegation on Green Salt Project, high explosive testing and missile re-entry vehicle, had been raised over 4 years ago, thus is not a new issue.

The Safeguards Department has claimed that the intention of this report is to refresh the memories of the members of the Board of Governors at the cost of public confusion and damaging the Agency's credibility.

Despite there has been no any other new development, this DG report (GOV/2010/10) complies with parts of the past DG's reports which have been chosen selectively and incompletely, specifically focused on unproved and baseless allegations, so called alleged studies, and possible military dimension.

4- Pursuant to the official communication by Iran dated 7th February 2010 in which it officially notified the Agency about its decision to start enrichment activities up to 20%, Iran did not start the activity until the Agency officially had acknowledged the receipt of its notification and informed Iran on the same day that the inspectors have already been instructed to be present at FEP in Natanz on 9th February 2010.

[Quote from the letter of the Agency by the Director of the Division of Operations B, Department of Safeguards, dated 8 February 2010: "I refer to your letter dated 8 February 2010 (Ref.M/137/315/5009) and I would like to inform you that our inspectors have been instructed to be at FEP on the 9th February 2010 to detach seal at the 30B cylinder containing LEU, maintain continuity of knowledge during re-batching to a 5B cylinder and seal both the 30B and 5B cylinder after the verification"]

The centrifuges used for this purpose were already under full scope safeguards including 24 hours surveillance of the Agency's camera and the routine inspections.

Iran however decided to inform the Agency before taking any action and also to invite the inspectors to be present at the time of commencement of the 20% activity.

Therefore, the text of paragraph 11 of the report is in contrary to the factual arrangement and is misleading.

5- The fact that all declared nuclear materials is accounted for and is remained peaceful and under the Agency full scope surveillance is not reflected and is a missed essential element of this report.

6- Mixing the notions of "all nuclear material", "declared nuclear material" and the issue of "assurances about the absence of undeclared nuclear material" in the context of Comprehensive Safeguards Agreement (CSA) and Additional Protocol, respectively, in a non-professional manner, has undermined the full cooperation of Iran in accordance with its CSA obligation and has misled the public.

7- The facts that the material of the alleged studies has lack of authenticity, that no nuclear material was used and no components were made as declared by the former Director General in respect of baseless alleged studies, are missing parts in this report.

8- The report lacks any reference to the fact that the United States did not permit the Agency to deliver to Iran the material related to the alleged studies, associated to the so called American laptop, thus the Agency's verification activities were jeopardized and its credibility damaged, since the Agency was obliged to deliver the material to Iran in accordance with the Work Plan (INFCIRC/711) agreed upon by the Islamic Republic of Iran and the Agency.

One could easily notice the criticism of the former Director General in this respect.

9- It should be recalled that there were only six past outstanding issues which had been included in the agreed Work Plan (INFCIRC/711) and that all of them have been resolved.

Also the part IV. 1 of the Work Plan reads as follows "These modalities cover all remaining issues and the Agency confirmed that there are no other remaining issues and ambiguities regarding Iran's past nuclear program and activities."

Therefore, no new issues should be raised such as "possible military dimension".

10- According to the Work Plan agreed upon by Iran and the Agency on 21 August 2007 (INFCIRC/711), the Alleged Studies have been fully dealt with by Iran and the item in the Work Plan is concluded.

Any expectation of another round of substantive discussion or the Agency's request for providing information and access is absolutely in contravention with the spirit and the letter of such an agreement which both parties have been committed to.

It should be recalled that the agreed Work Plan is the outcome of fruitful and intensive negotiations by three top officials in charge of Safeguards, Legal and Policy Making Organs of the Agency with Iran and eventually acknowledged by the Board of Governors.

Therefore, it is highly expected that the Agency respects its agreement with Member States, otherwise the mutual trust and confidence which is essential for the sustainable cooperation shall be put in jeopardy.

Is Peace Getting in the Way of Our War Plans?

By
David Swanson

What a bizarre circumstance this is.

The irrational Iranians are behaving too reasonably.

The unmovable Iranians seem to be compromising too readily.

This past weekend, the United States and other major nations finally spoke with Iran. In 10 hours of talks (or 5 with translations), minus a lunch break, Iran agreed to a framework for ensuring that its nuclear program is only used for civilian purposes.

If this keeps up, the whole basis for war could be lost. And it's all the result of having finally spent a few hours talking with Iran.

The obvious solution is to cut off the talks, issue ultimatums, lower the threshold for what justifies war, and impose more deadly sanctions than ever.

And that's just what some of our misrepresentatives in Congress are about to try.

Although, the last time Iran tried to agree to ship its uranium out of the country for refinement, talks were conveniently sabotaged by an explosion in Iran.

So, there are a variety of methods for sabotaging paths to peace.

But is this really so bizarre?

Or does peace often threaten to get in the way of the best laid plans to pretend to be reluctantly forced into war as a "last resort"?

Let's not forget that the inspections in Iraq were working in 2003, the inspectors believed they could give more conclusive findings if allowed a little more time, and President Bush pulled the inspectors out in order to begin the shocking and awing.

Bush and his subordinates then frequently falsely claimed that Iraq had kicked out the inspectors.

And let's not forget -- or let's learn now, if we never did -- that the Taliban offered after 9/11 to turn bin Laden over to a third country to be put on trial.

Instead, our government chose a decade of war in Afghanistan, followed by an assassination, followed by the continuation of the war for additional years.

In fact, as documented in War Is A Lie, peace offers and offers to talk have been rejected and hushed up prior to or during World War II, Korea, Vietnam, and many other wars stretching back in U.S. history to countless broken treaties with Native Americans.

During the U.S. war on Vietnam, peace settlements were proposed by the Vietnamese, the Soviets, and the French, but rejected or sabotaged by the United States.

The last thing you want when you're trying to start or continue a war -- and when trying to sell it as a reluctant action of last resort -- is for word to leak out that the other side is proposing peace talks.

It is to the credit of our society that even proponents of war, even those who argue for its humanitarian benefits to its victims, must always maintain that it is a last resort.

It is to our credit that some in our government at least partially favor using diplomacy.

But others fear giving diplomacy the slightest chance, knowing it is very likely to succeed in many cases.

Some proponents of waging war on Iran admit that they do not fear Iran acquiring a nuclear weapon and using it; they fear Iran acquiring a nuclear weapon and doing the same thing every other nation does with them: not use it.

It would then be harder to overthrow Iran's government.

But those who want quick "regime change" clearly fear Iran agreeing to severe restrictions and inspections, which would eliminate all possibility of pretending that Iran has a nuclear weapons program.

This past weekend's talks clearly suggested that an alternative to war is possible.

This prospect for peace was immediately denounced by right-wing Israeli Prime Minister Netanyahu, U.S. Senator Joe Lieberman and other members of Congress – who may try to block further talks as early as this week.

A Senate effort to prevent the talks from even beginning had been blocked by Sen. Rand Paul. Now Congress is coming back with more deadly sanctions, ultimatums, and resolutions requiring war.

But Congresswoman Barbara Lee has a bill with 21 cosponsors that would allow and require talks, end the Obama Administration's policy that forbids U.S. diplomats to have direct contact with Iranian government officials without express prior authorization from the Secretary of State, and prevent any war not legally authorized by Congress.

Now, who would be threatened by such a reasonable proposal, as long as war truly is the last resort?

JEWS, GENERALS, & THE US WAR MACHINE

Jews, Generals, & The US War Machine

AMERICA'S CHANGE FROM A CIVILIAN TO A MILITARY ECONOMY reached a point of no return in the 1960s. From then on, a perpetual "war machine" was in motion with Wall Street Jewish investment banks funding US armament industries.

The change can be traced to Truman's National Security Council Paper, "NSC-68", which put forth that America could sustain its economic growth by applying John Maynard Keynes' emphasis on the role of government to the military or "security" sphere.

Truman signed the Paper as a basic US policy doctrine on September 30, 1950.

Although the world was at peace, the directive called for increasing the annual US arms budget by 350%.

"Military Keynesianism" soon became the essence of America's economy.

And the Zionist Jews of Wall Street took full advantage of this new investment opportunity.

While Military contracts were awarded to defense contractors to maintain the “Cold War” with Russia, US industrial plants began to decay.

Outsourcing came into vogue as Americans bought TV sets, cameras, and cars from overseas.

American labels on foreign goods were just American wrappers on Asian products.

TURNING THEIR INVESTMENTS to consumer production and commercial markets abroad, Wall Street Jews began concentrating their finances on military production at home.

Skilled technique and able management now belonged to Japan, not America.

Jewish bankers were no longer interested in domestic civilian production.

Their market was the US government and payments were fed by the Jewish-owned Federal Reserve.

So why bother investing in American-made cameras or washing machines when you could invest in bombers and drones?

The profits were much larger and the risks were zero.

Reaching a position of permanence after 9/11, “Military Keynesianism” had produced a “National Security State” — controlled by Zionists and financed by Wall Street Jews.

By signing NSC-68 in 1950, Harry Truman had given birth to a Military/Zionist global beast.

Mutual Blood Funds

ZIONIST JEWS FUND THE US WAR MACHINE

THE PUSH FOR NEW AND MORE DEADLY WEAPONS is currently fueled by Jewish investment banks, with Goldman Sachs and State Street Corporation at the lead.

With military spending being the largest single item in the federal budget for fiscal 2010 and calls from Obama for a record \$708 Billion to fund his wars, defense contractors get their marching orders from Jewish investment analysts who dictate contractors' business policies from their financial towers on Wall Street.

Based on a Goldman Sachs Report published on June 5, 2009, which forecasted a decline in investments in defense industries, General Dynamics announced that it was acquiring Axsys Technologies, a company that provides high-end optics for unmanned drones, in order to attract investors.

In another example of Jewish bankers' control of Defense contractors, shares of Lockheed Martin were driven down by 1.3% on January 6, 2010, after Goldman Sachs told investors to "sell" rather than "hold" Lockheed stocks.

Not only do the Jews on Wall Street control military industries externally, but they maintain leverage over the defense contractors, internally.

A greater amount of power over the military industries has been concentrated into fewer hands - (it only takes 10% ownership of stock to control a widely-held corporation) - and these hands are those of huge Jewish investment blocs.

Lockheed Martin, Boeing, and Northrop Grumman have large Jewish banks as their major investors.

The huge investment bank, State Street Corporation, is the major stockholder of these 3 top US defense contractors.

In the Board of Directors of SSC, one can find the names of Robert S Kaplan (Former Senior Director of Goldman Sachs); Robert Weissman; and Peter Coym (Former Chairman of Lehman Brothers.)

State Street Bank owns 18.99% of Lockheed Martin stock, 11.09% of Boeing stock, and 9.48% of Northrop Grumman stock.

Co-shareholders in these companies as well as in Halliburton and Raytheon, include the Jewish Investment banks, Goldman Sachs, Oppenheimer Funds, and Capital Research And Management Company.

In other words, no General of America's armed forces, (and thus the entire US military), makes a decision apart from the Jews on Wall Street who control his ability to wage war with the deadly armaments they provide. [View List Of Defense Investors Here.](#)

Who Controls The Major U.S. Military Contractors?

This page was created to help determine who really controls the top 10 defense contractors listed this year in the [DOD's 2005 report](#), which became available January 2006.

It was a lot of work, but it turned out very interesting.

I can't help but think that nothing has really changed since 1889, when the Great Red Dragon book was published, except that a greater amount of power has been concentrated into fewer hands since then.

The point is, control of American companies is rapidly being consolidated into a few foreign hands, and they are also doing so at "[frantic](#)" pace.

Damn any of the promises that had been made, such as retirement benefits, health care and pensions. And why is this being done?

To "[own the earth in fee simple.](#)"

You can do the same lookup on any public corporation and see for yourself who controls what.

You will also see that some of the major holders are hardly nothing more than a "front" for another, more powerful group.

Simply find out who the major holders of the major holders are and you will see for yourself.

This is simply to make it easier to deceive the public.

While doing this, remember that it only takes 10%, sometime less, sometimes more, of the stock to "control" a widely-held corporation.

Especially when management and insiders show little or zero ownership.

They, as hirelings, simply take their marching orders and their large paychecks, and everybody else be damned.

If they show any conscience about what happens to their employees or customer base, they are simply replaced by another "aggressive leader."

Be sure to click on the company's stock letters to check on these "Key Executives," the sums they were paid last year, and the stock options they cashed.

Another problem we're facing now is the growth of private-equity groups, which don't have to make the same disclosures as the publicly-held groups.

This is why they keep gaining up on the SEC to "prevent" disclosure and accountability.

'JEWISH LOBBY CONTROLS OBAMA'

SEEKING A GLOBAL SHOWDOWN with Russia and China, Zbigniew Brzezinski, who is recognized and feared by Zionist Jews as Obama's foreign policy adviser, is intent on bringing Iran back into the Western orbit.

In Brzezinski's world view, Iran could be a valuable US asset to be played against Russia and China.

Even with his protege at Defense, Robert Gates, and his reputation as a global strategist, Brzezinski has all but admitted that he simply is not strong enough to withstand the power the Jewish lobby wields over Obama's decision-making in foreign affairs.

This has recently come to light in Brzezinski's latest article for the Council of Foreign Relations, "From Hope To Audacity."

Beginning his treatise with the premise that the US should not be at war with Islam, Brzezinski proceeds to take on the "Second Echelon" in Obama's administration which includes Zionist Jews Dennis Ross, Special Adviser on Iran, Rahm Emanuel, Chief of Staff, and Zionist shill Hilary Clinton at State.

HOW 9-11 WAS DONE.COM

ISRAELI FALSE FLAG TERROR OPS ON SEPT 11TH EXPOSED

Opening himself in his article to further accusations of being an “Anti-Semite,” (Alan Dershowitz initiated the lie), Brzezinski challenges the Zionist status quo and adds insult to injury to his already stated position that Obama should negotiate with Hamas

“It is not fashionable to say this, but much of the current hostility toward the US in the Middle East has been generated by the bloodshed and suffering produced by the prolonged Israeli-Arab conflict.

Israel’s refusal to negotiate with the Palestinians in good faith compounds the problem.” [View Entire Story Here.](#)

Moving on in his essay to the “stalemate” in Obama’s policy regarding Iran’s nuclear ambitions, Brzezinski goes toe to toe with the Jewish “insiders” at the White House

“Obama’s two special advisers, David Axelrod and Rahm Emanuel, participate in significant decision-making.

Both of them sat in on the president's critical September meeting with Israeli Prime Minister Benjamin Netanyahu.

As a result, Obama's redefinition of US foreign policy is vulnerable to dilution by these upper-level officials who tend to yield to pressures from domestic interest groups.

This fosters a reluctance to plan for a firm follow-through on bold presidential initiatives should they encounter a foreign rebuff reinforced by powerful domestic lobbies.

Netanyahu's rejection of Obama's demand that Israel halt the construction of settlements is a case in point."

In his concluding theme, "Domestic Impediments," Brzezinski exposes the Jewish Lobby and their total control of Obama's foreign policy decisions

Special interest lobbies have become overly influential in US politics.

Thanks to their access to Congress, a variety of lobbies — some financially well endowed, some backed by foreign interests — have been promoting, to an unprecedented degree, legislative intervention in foreign-policy making.

Promoted by lobbies, Congress not only actively opposes foreign policy decisions but even imposes some on the president.

The pending legislation on sanctions against Iran is but one example. Such congressional intervention makes it more difficult to ensure that US — not foreign — interests are the point of departure.”

PUTIN FOILS THE JEWS AGAIN

CRYSTALLIZING AN ANTI-WEST AGENDA, on May 12, 2009, Putin signed the Russian National Security Strategy, effective 2010 - 2020.

The document reflects the sharp deterioration in relations between Russia and the West over the last decade.

Underlining Russia's hostility toward NATO expansion and Russia's claims to attain strategic parity with the US, upon approving the Strategy Paper, Putin embarked on an aggressive alliance with Jewry's new number one enemy, Iran.

(Who will be their next enemy?)

In July 2009, joint Russia-Iran military exercises in the oil-rich Caspian Sea, dubbed, "Regional Collaboration for a Secure and Clean Caspian," signaled a new trend in Russia-Iran military cooperation.

The maneuver, involving some 30 vessels, is seen by some analysts as a way for the two countries to join forces against the US, which pro-Iranian observers refer to as "the intrusive Western superpower."

Following the new trend, although it has not yet been delivered, Putin knows that the US and its client state, Israel, don't want their new air defense capability, the S-300 missile system, sold to the Iranians.

The contract between Russia and Iran, signed in 2005, is currently "under review" by Putin, in an obvious episode of political posturing. Russia's official news agency, Ria Novosti, reported in November 2009, that "Russia will not freeze the contract as a concession to the United States."

Iran's news agency, Press TV, affirmed that the sale "will take place" and that delays are due only to "technical" issues.

An agreement between GAZPROM and Armenia to build a refinery that would serve both Armenia's needs as well as export to Iran, is about to be finalized.

On the top of world Jewry's list for the next level of sanctions against Iran is refined petroleum products.

The joint effort between Putin and Armenia will nullify these sanctions.

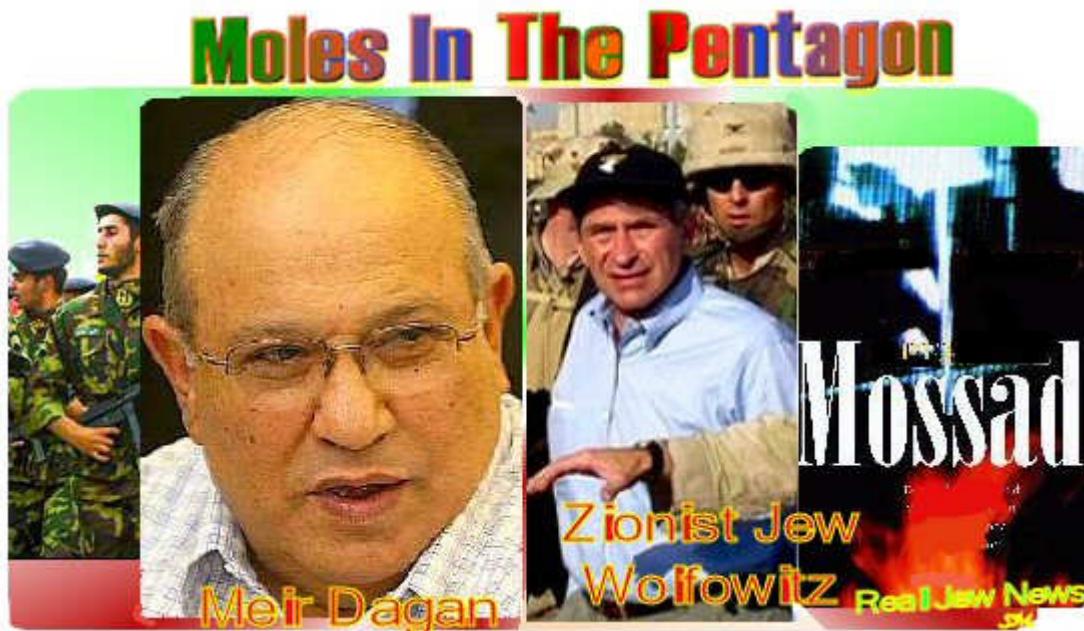

Demonized by the West's Jewish-occupied press, Vladimir Putin continues to be a thorn in Jewry's side.

Nevertheless, Putin displayed his resolve to dismantle their unipolar world when he called for a "time of enlightenment" at Davos last year.

But the Zionist Jews who continue to maintain a "time of darkness," keep on pushing for WW III...

The Mossad's Infiltration Of America

THE MOSSAD'S INFILTRATION OF AMERICA

THE MOSSAD PRIDES ITSELF ON DEEP infiltration & penetration into every 'Muslim' militant group in the world.

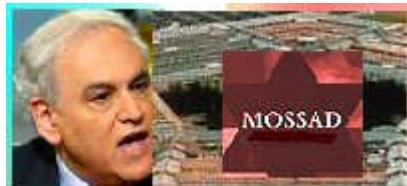

Thus any media-hyped 'terrorist' attack reported by the Jewish occupied press is doubtless a Mossad operation.

All of the Mossad-engineered 'terrorist' attacks benefit the Jews since it galvanizes the Western world into making Israel's enemies their own - and gives Israel a free hand in dealing with the Palestinians who are looked upon as enemies of the world.

The infiltration of the Mossad into the US political & military infrastructure had its greatest impetus in the 1980's during the Reagan & Bush Sr administrations.

3 Zionist Jews with close ties to the Mossad held influential offices in the Pentagon during this period

Richard Perle: Perle worked at the Pentagon as Assistant Secretary of Defense for International Security Policy from 1981 to 1987.

Prior to this, Perle was investigated by the US Justice Department for discussing classified information with an employee at the Israeli Embassy, but of course, the case was dropped.

Paul Wolfowitz: Wolfowitz worked at the Pentagon as Deputy Assistant Secretary of Defense for Regional Programs from 1977-1982. At this time, he was involved in establishing the US military central command.

From 1982-1986 Wolfowitz worked at the State Department as Assistant Secretary of State for East Asian and Pacific Affairs.

And from 1989-1993 Wolfowitz was back at the Pentagon as Under Secretary for Defense Policy.

Douglas Feith: Feith worked at the Pentagon from 1984-1986 as Deputy Assistant Secretary of Defense for Negotiations Policy.

Feith was also employed as Special Counsel to Assistant Secretary of Defense, Robert Sims.

All three of these Zionist Jews, whose loyalties are first to Israel & their fellow Jews, were brought back into high Pentagon positions by their useful idiot, George Bush Jr, during his first term as President from 2001-2004.

According to Karen Kwiatkowski, former Political-Military Affairs Officer at the Pentagon, "high clearances were granted to Israeli's & Likudniks who would march through the halls of the Pentagon."

Having grown up as a Jew, I can attest that Zionists like Perle, Wolfowitz, & Feith, would not scruple to bring moles into the Pentagon to spy on our nation.

I say this because Jews have an attitude of derision and contempt for "Gentile" America. Zionist Jews look out for their own interests and will trash America when it comes to their own 'survival.'

A MOSSAD OPERATIVE IN THE PENTAGON

DOV ZAKHEIM IS A TALMUDIC JEW and former Yeshiva University Professor. Zakheim served as Chief Financial Officer and Comptroller of the Pentagon from 2001-2005 at the height of the Jewish-neocons' political influence. Prior to his Pentagon position, Zakheim was CEO of Systems Planning Corporation (SPC) from 1987-2001.

During Zakheim's tenure with SPC, he helped to market SPC's Flight Termination System, a technology that takes over the controls of an airborne vehicle in flight.

The probability of the sinister use of SPC's Flight Termination System, (of which, Zakheim had privileged access, and through Zakheim, the Mossad & their moles), deserves serious consideration for the reopening of the 9/11 investigation.

In fact, the Zionist Jew, Dov Zakheim, along with his Mossad cohorts, should be put on trial for the theft of public funds, treason, and the murder of thousands of innocent victims at the World Trade Center on 9/11 2001.

Zakheim Hosts Rabbis On Pentagon Lawn

As the Pentagon's Comptroller from 2001-2004, Zakheim oversaw three Department of Defense budgets, the combined amount totaling \$1 trillion dollars.

ISRAELI FALSE FLAG TERROR OPS ON SEPT 11TH EXPOSED

In the spring of 2003, a scandal erupted, in which \$1 trillion dollars in financial transactions was unaccounted for.

Bush immediately pointed to "faulty Pentagon accounting" which would have (& should have) placed the blame on Zakheim.

A study by the Defense Department's Inspector General discovered that not only could the Pentagon not account for the trillion dollars in monies spent, but that the US Army somehow lost track of 56 airplanes, 32 tanks, and 36 Javelin missile command launch-units.

How is that the Zionist Jew, Dov Zakheim, got off Scott free?

And where did the money and military equipment end up?

I say the money ended up in the hands of the Mossad - and the equipment in the hands of the Israeli Defense Force.

For they had "their man" — Zionist Jew Dov Zakheim — in the Pentagon.

INFILTRATING COMMUNICATIONS

"ISRAEL IS THE EAVESDROPPING CAPITAL OF THE WORLD" observes James Bamford in his recent October 2008 book, The Shadow Factory - The Eavesdropping On America.

In his book, Bamford gives a detailed account of how spying on American citizens since 9/11 has been outsourced to companies closely linked to Israel's intelligence service, the Mossad.

In an alarming passage, Bamford reveals that AT&T & Verizon outsourced their wire-tapping arrangements made with the FBI and the National Security Agency (NSA) to two companies founded in Israel, Verint and Narus.

These two Israeli companies have close ties with the Mossad's Unit 8200, the Israeli equivalent of the NSA.

By Infiltration..WageWar

Through the contractual agreement between America's largest phone companies and the Israeli telecom firms, Verint and Narus, the Mossad has access to once-private American communications information.

"Virtually all US voice and data communications can be remotely accessed by these companies in Israel," writes Bamford.

Verint and Narus were founded by Israelis — the Israeli-born, Jacob Kobi Alexander, being the founder of Comverse Technology, Verint's parent company, headquartered in Israel.

Comverse Technology subcontracts the installation of tapping equipment now built into every phone system in America.

And Comverse maintains its own connections to the phone tapping equipment, insisting that it is for "maintenance purposes only."

Methinks That That Zionist Jews With The Mossad At The Head Have America By Its Tail

Jewry's Scheme For World Domination

Fulfilled Before Our Eyes...

GLOBAL CONQUEST IS JEWRY'S ULTIMATE GOAL.

In order to achieve this, international Jewry has taken control of banking, the press, the media, political institutions, academics, and the Military/Industrial complex.

Jewry's scheme for world domination has been carefully laid out in its manifesto, The Protocols Of The Learned Elders Of Zion.

According to the renown scholar, Dr Henry Makow, "The Protocols is the New World Order's blueprint - the Illuminati's master plan."

"Jewry's goal," Dr Makow continues, "is to overthrow Western Civilization through the destruction of its four pillars:

- I.** Family
- II.** Nation/Race
- III.** Religion
- IV.** Democracy.

Dr Makow has also proven that The Protocols is a genuine document and not a forgery.

[View Entire Story Here](#) & [Here](#).

Much of The Protocol's agenda of destruction is taking place right before our very eyes:

- Manipulation of the economy through banking monopolies
- Manipulation of the educational system through falsifications of historical events
- Manipulation of the general culture through undermining Christian morality
- Manipulation of political systems through bribery and funding of selected political candidates
- Manipulation of social venues through crisis-events leading to suspension of civil liberties.

INTERNATIONAL JEWRY & MILITARISM

THE ISRAELI MASSACRE OF GAZA CIVILIANS is setting the stage for a global "militaristic" assault by worldwide Jewry on what is left of historic Christian civilization.

Because of the contrived agenda known as the 'war on terror,' the rogue state of Israel is utilizing its military prowess by collaborating with the West's military establishment.

Many joint ventures between Israel and international defense contractors are part of Israel's plan to fully 'globalize' their Zionist agenda.

And Israel's recent pact with NATO to "share intelligence and engage in joint military exercises," solidifies Jewry's scheme to dominate, by force of arms, the Western world.

"Anti Terror Training" is yet another venue for Jewry's scheme for world domination.

In September of 2008, The Anti Defamation League (ADL) sponsored such "training" by sending various local US police officers (all expenses paid for!) to Israel to learn from Israeli SWAT teams.

And recently, the collaboration between Israel and US defense contractor, CACI International, brought to light their mutual implication in the torture of Iraqi citizens at the infamous Abu Ghraib prison.
